# *Local Activity: New Jersey State Museum*

By Kyungjoon Lee

The dorm students visited the New Jersey State Museum for this month's local activity. Through the collections and exhibitions, the students learned the cultural and natural history of New Jersey. The museum also had a Planetarium, in which the students could gain their knowledge in astronomy. The recreational light show at the Planetarium was definitely everyone's favorite!

# College Tour: Pennsylvania State University

By Myoungjun Ko

The dorm students visited Pennsylvania State University this month. Located in State College, Pennsylvania, Penn State is a top-ranked university and Pennsylvania's sole land-grant institution. The most popular majors at Penn State include engineering, business, management, marketing, and related support services. The students walked around the campus as their guardian, who is an alumnus of Penn State, gave a tour of the entire school. Visiting the school and looking around every building was a great activity for the students, especially for those who have Penn State on their college list.

# Guest Speaker

By Jiwoo Kim

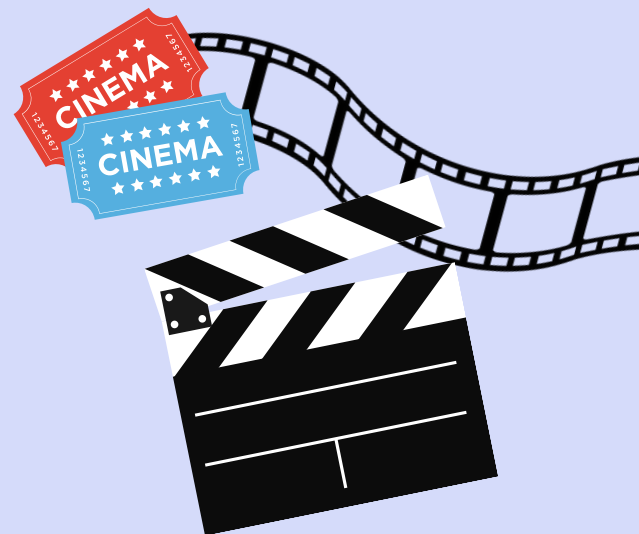

The CEC dorm invited Mr. Paul Hyon, a business manager, to give a presentation for students who are interested in delving deeper into the field of accounting and business. Throughout the presentation, the students learned a lot about his career field, including his responsibilities as a business manager and the advantages and disadvantages of the job. It was a great chance for the students to learn what it is like being a business manager, particularly for those who want to pursue a career in the business management field.

# School Activities

The Film Club is one of the most popular clubs at CEC. Moderated by Mr. Slater and Mr. Molnar, the club explores the most renowned masterpieces in the entire movie history. It's not just about sitting there and watching the movie; analyzing different scenes and learning the components that make up the film introduces you to the most sophisticated details of the movie, which makes the film even more enjoyable. If you are a movie person, I highly recommend you to join this club!
